About Janna Bowman

Born and raised in California, Janna has a relaxed attitude toward life with a modern and natural approach. She likes to be organized, thoughtful, and has an inert need for the eye to see simple and clean beauty. She loves to learn and explore new depths of personal growth and strive to see people in their highest light, always reminding herself "we are all connected." She adores California, earthy scents, fresh food and good wine. Janna considers herself to be a 'product whore' with a passion for finding the best of the best. She begins each day practicing consciousness, meditating on how she wants to feel so as to stay 100% present in treatments. This helps Janna to focus intuitively so that her guests leave feeling better than they arrived. She's a sucker for good packaging and all things cute, a lover and a dreamer, and an eternal optimist.
